# LINDENWOOD

## URBAN STYLE QUILTED JACKET

Inspired by the urban fashion scene, Lindenwood offers a unique way of dressing casually while allowing a both raw a stylish appearance. Lindenwood is a water repellent and lightweight jacket made in a 100% recycled outer fabric and lining, and insulated with a Sorona® Aura padding, making it suitable for wearing all year. The popular vertical quilted look makes this jacket right for wearing with both elegant and more rugged outfits. Men's version feature a stand up collar and zipped pockets. The female version is designed in a 3/4 length featuring buttoned pockets and a low collar.

|               |                                                                                                                                                         |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>FABRIC</b> | Outer fabric: 100% Recycled Pongee (Polyester). Water repellency finish - Bionic Finish® ECO.<br>Lining: 100% Recycled Polyester. Padding: Sorona® Aura |
| <b>COLOUR</b> | Navy                                                                                                                                                    |
| <b>WEIGHT</b> | Outer fabric: 75 g/m². Lining: 60-65 g/m²                                                                                                               |
